### WHEAT AND OFFICIAL STATISTICS.

The logic of events, says the New York Tribune, is hard to answer as the wheat speculators are learning. After putting up wheat to \$1.20 last October, they persisted for months in the assertion that there was not enough of the grain to go around, that the official reports of the bureau of agriculture were so much less trustworthy than their guesses, that the great millers in Minneapolis really knew more than anybody else about the size and quality of the wheat crop, that Europe was short of its regular supply by an enormous quantity which could not possibly be obtained from any other country than this, and that European buyers would have to pay any price holders saw fit to ask before the crop year ended. It is supposed that somebody invested many millions on the faith that these stories were correct. On the other side there was nothing offered of consequence except the official reports and legitimate deductions from them. But the people who sold wheat in the faith that those official reports were substantially correct saw the price nearly 20 cents lower before the end of December.

The attempt to persuade people that a scarcity was inevitable, that government statistics were crooked and that the millers knew all about it, has been kept up ever since this year began. When the bureau represented the quantity remaining in farmers' hands, that was also pronounced an utterly untrustworthy statement, though it was easily reconciled with other official figures. But somebody has been using or losing several millions in attempts to control the wheat market since January 1, and the price on Monday was about 15 cents lower than when the year began. By way of further proof that all the speculative predictions were in error, Europeans have failed to come after the enormous quantity of wheat supposed to be required, and have somewhat supplied all needs with similar receipts from the Atlantic states than have been recorded in any other year for a long time.

The price obtained in markets east and west indicates pretty clearly that the holders, traders, and possibly purchasers, have all come to substantially the same conclusion, that the official reports were entirely correct and trustworthy—or, at all events, more trustworthy than any other of the so-called statistics published. As this is not by any means the first time a powerful combination of speculators has tried to make everybody believe the official reports misleading and false, and as the result is just what has usually followed such endeavors, it seems to be in order to remark once more that the solemn assertions or even the insinuations of a speculator do not as yet appear of greater practical value than the returns published by the agricultural bureau.

Whether wheat will mount up to-day or to to-morrow at Chicago, or sell for \$2 a bushel before July, it is not the province of a public journal to prophesy. What can properly be said is that there is not now, as there has not been since experts were arrested by the advance last year, any reason to fear a scarcity of wheat, unless the weather should prove exceptionally unfavorable. The acreage sown this spring appears to be larger than in any previous year, and the appearance of winter wheat is such on the whole as to indicate a full crop. If the men who forced poor people to pay a higher price for their loaf of bread some months ago have lost much of their money nobody is sorry.

### STANLEY'S MACHINE GUN.

CHICAGO: Enquirer. The prints of the English-reading world have been full of stories about the machine gun which Henry M. Stanley carried with him in his last desperate venture in Africa. And yet it is an old story. It occurs to this paper to properly tell it. The weapon so much talked about is a Maxim gun. It was invented by a citizen of these United States. He was poor, and sought encouragement from our government. He got none. He went to England, where they saw its merits at once and made him rich. His gun is under control of the British government.

At the time when he commenced his investigations the three great machine guns of the world were the Gatling, the Hotchkiss, and the Nordenföhr—the first two American, the last English. There was little difference in their merits, save that the Hotchkiss was lighter and made for ready transportation.

Maxim, an American boy, said to himself, there are faults about these machine guns.

1. The turning of the crank prevents anything like an aim. 2. Often the cartridges hang fire a little, but the crank turns on, and they explode at the wrong time. 3. Most of all, the rapid firing even dangerous in a few seconds.

The Maxim gun overcame all these defects. It is automatic. It needs no crank. Pull the trigger once and it goes on as the supply of cartridges lasts. The power of "the recoil" does all the work, even to shooting a jet of water along the barrel to keep it cool. It fires 700 shots in a minute, and all that the operator has to do is to aim it.

This is the Stanley gun. You can not see it in the United States now, for it is owned by the government of Great Britain.

## THE CASUALTY RECORD.

### ANOTHER VICTIM OF THE SANTA FE ACCIDENT.

A lively blaze in Gotham—Fireco Forest Fires in the Pennsylvania Mountains—Accidents.

Section 1. At January 1, 1890, no contracts shall be let in any form whatsoever to private individuals, firms or corporations for the labor of the persons confined in the Wisconsin state prison; but such persons or convicts shall, so far as practicable, be employed in the judgment of the state board of supervision, be employed in the manufacture of goods and articles used in state institutions, including the capitol building at Madison; and all other convicts except such as may be required for prison duties, shall be employed in manufacturing goods and articles to be disposed of on the public account system. Provided that not more than 100 convicts shall be engaged at any time upon the same kind of goods or in the same branch of manufacturing.

Nothing could cripple the efficiency of the state prison more than to abolish the present contract system. There is no class of goods that the state institutions need in any considerable quantity, that can be manufactured at the prison. And then to limit the number of convicts who shall work in the same branch of manufacturing, will be another drawback to the success of the state account system. It is a fact which can be plainly seen by any practical man, that it would require a good many thousands of dollars to change the present system of prison labor, buy machinery and material, and put the goods on the market. The new plants would not only be expensive, but the result, with the best of management, would be one of the costliest experiments ever tried by the state. A wise legislature will let well enough alone.

No wonder King Milan wanted to get out of Belgrade. He was as much a martyr to dread of assassination as the Czar of Russia. It is told that he slept in a room with double doors, ironed, which he locked himself and bolted from the inside. A powerful man, he slept at the foot of his bed, and he kept a loaded revolver on the table. There was no chimney place in the room, lest dynamite should be dropped down, and no coal was used in any room he occupied, because he once saw a murderer one night engine which looked outwardly like a lamp of coal. He was so afraid of poison that he always had the wine he drank uncorked before him. His coffee was always made in his presence with a spirit of wine apparatus, and he would never, when eating alone, touch a meat dish, but only plain toast or broiled eggs—for there is no putting poison into an egg. Suspicious of bread he ate brown-bread biscuits of English make, of which there was always a tinful in his study.

The Sentinel has repeatedly spoken of the bad habit into which the representatives of Milwaukee in the state legislature have fallen, of organizing as a body to pass all proposed legislation affecting the city—*Milwaukee Sentinel*.

The "bad habits" that the Sentinel refers to are not confined to the Milwaukee delegation. There are a good many other delegations north of the southern tier of counties of the state that have habits that suit them for legislators. Let some one might misinterpret the word "habit," we will say by way of explanation that it refers to too frequent bad voting.

The political complexion of the Rhode Island legislature was finally settled by the result of the elections held Tuesday, the republican vote on joint ballot being increased to 67 (55 being a majority.) This also determines that the principal state officers will be filled by the republicans for the coming year.

Warner's Log Cabin Remedies—old-fashioned, simple compounds, used in the days of our hardy forefathers, are "old timers" but "old reliable." They comprise Warner's Log Cabin Sarsaparilla, "Hops and Broom Remedies," "Dough and Consumption Remedy," "Hsir Tonic," "Extract," for external and internal use, "Pain-Expeller," for Catarrh, Gout, and "Liver Pills." They are put up by H. H. Warner & Co., proprietors of Warner's Safe Medicines, and promise to equal the standard value of those great preparations. All druggists keep them.

Mary Anderson Now in Europe. QUEENSTOWN, April 12.—Miss Mary Anderson, the American actress, arrived here this morning on the White Star steamship Germanic.

Her ocean voyage has been immediately beneficial to her, and she is already better than when she left New York, and has gained in strength, notwithstanding the fatigues of the voyage. The Anderson party proceeded to Liverpool after a brief stay here, and will be met there by a special coach, engaged before the party sailed from New York, to convey them to London.

Boulangier Boycotted. BRUSSELS, April 12.—Upon the appearance of Gen. Boulanger at the soiree given by M. Somere last evening the officials of the French embassy who were present immediately took their departure. The Prince de Chimay, Belgian minister of foreign affairs, and most of the other members of the cabinet, declined to be introduced to Gen. Boulanger, and also departed. Almost all of the diplomatists present kept aloof from Boulanger during the evening.

Restored the Premier to Life. VICTORIA, B. C., April 12.—Mr. Duns-muir, Premier of British Columbia, has been seriously ill for some days. Yesterday morning he was discovered in a comatose condition, and physicians when summoned pronounced him dead. The usual means of restoring respiration were tried, however, and were finally successful. In the evening the patient was much better, and it is believed will recover.

## THE WISCONSIN LEGISLATURE.

### Keogh's Contract Labor Bill Passed the Assembly by 51 to 27.

The Bentley & Nowlan Bill Reconsidered and Referred to Judiciary Committee.

### Other Important Matters Considered in the Two Houses.

Special to the Gazette. MADISON, April 12th.—The Assembly passed the following bill: To give miners a lien on ores. Increasing the powers and pay of game wardens. To give extra pay to legislative employees. To allow Stetsoyan to settle corporate debts.

Keogh's contract labor bill passed by a vote of 51 to 27; also bills increasing fifty cents per day to each the compensation of all legislative employees now receiving not more than three dollars and fifty cents. Senate bills concurred in: Reducing fees of treasury agent to twenty-five per cent. For enforcement of judgements. Allowing trains to run over crossings without stopping when there are automatic switches. Providing penalties for false statements to assessor. Assembly reconsidered its refusal to concur in bill appropriating twenty-six thousand dollars to Bentley and Nowlan and the bill went to the judiciary committee.

### SIX BURNED TO DEATH.

A Mother and Five Children Consumed in Their Home Near Clayton, Ga. CLAYTON, Ga., April 12.—The residence of W. P. Wood, two miles north of Clayton, on the Franklin road, was consumed by fire last night after midnight, and with his wife and five children. The fire is supposed to have caught from burning leaves near the end of the yard, set on fire the day previous. From the location of the partially consumed bodies of the five children it is thought they were burned while on the bed, just in the position in which they were sleeping. What remained of the body of the mother was found midway between her bed and the door near the middle of the house.

### VERY LIVELY FIRE.

Explosion of Cartridges at a New York Conflagration. NEW YORK, April 12.—The store of Henry C. Squier, a dealer in sporting goods in Broadway, was gutted by fire this morning, and Practico's optical goods store next door was somewhat damaged. The fire started in the engine-room in the sub-cellar of the building, and when it reached Squier's store created much excitement among pedestrians in Broadway, as the store contained a large amount of cartridges, and hundreds of them were exploded with a noise like a volley of musketry. The prompt action of the firemen prevented the spread of the flames to the second floor.

### PIERCE FOREST FIRES.

People Near Carbondale, Pa., Alarmed Over Possible Peril from Flames. CARBONDALE, Pa., April 12.—Forest fires have begun to rage on the mountains in this vicinity, and at night the horizon is outlined by a gleaming ridge of flame on all sides. Besides danger to the lumber interests of this section, to which the fire is apt to spread, there is great alarm felt by those who live near the powder mills, a few miles below this city, and recollections of last spring, when the people turned out en masse to fight the flames with buckets of water or have their homes blown up, serve to increase the general alarm.

### COOKED BY MOLTEN IRON.

YOUNGSTOWN, Ohio, April 12.—While pouring a bath to a 4,000-pound casting in the foundry of William Ford & Co., it exploded, hurling the molten metal in every direction. George Bryant, foreman, was leaning over the flask at the time and received the full force of the explosion, literally roasting him. He cannot survive. Frank Lee, a molder, was standing near Bryant and was almost as badly burned, but will recover. John Anderson, Nick Carroll, and William Kutz were burned about the face and head.

### A VILLAGE SWEEP BY FLAMES.

DETROIT, Mich., April 12.—Cannonsburg, Kent county, a village without telephones, telegraph or railroads, was nearly wholly destroyed by fire Wednesday. The blaze started in Thomas' hotel and swept the business part of the town. The only insured was \$1,000 on the hotel. The total loss is \$20,000.

### ARRESTED FOR LIBEL.

Ex-Gov. Crosby Places the President's Name in an Embarrassing Position. NEW YORK, April 12.—The threatened libel suit against Russell Harrison culminated Thursday in his arrest at the office of Judge on a charge of having published, in the *Brooklyn Daily Eagle*, an article taken from a Buffalo paper accusing ex-Gov. John Schuyler Crosby of Montana of having stolen jewels from a Washington lady.

Mr. Harrison came on from Washington Wednesday night for the purpose of having the papers in the suit served on him. The warrant was issued by Judge Beach of the Supreme Court, who fixed bail at \$5,000. Stephen R. Elkins, Vice-President of the Park bank, and W. J. Arkell of Judge, became Mr. Harrison's bondsmen. Judge L. Amereux of Ballston Spa is Mr. Harrison's counsel, and W. L. Sweetser his attorney.

Mr. Harrison says that he was not in charge of his paper at the time the article was published, and knew nothing about it. When his attention was drawn to the fact that the Buffalo paper had not told the truth Mr. Harrison offered to publish a retraction. This, however, it is said, Mr. Crosby would not accept. He demanded, it is claimed, that Mr. Harrison should write a personal letter of apology and also print the same. This Mr. Harrison declined to do.

### FIERCE FIGHT AT DAYTON, OHIO.

DAYTON, Ohio, April 12.—A bloody seventeen-round prize-fight came off in a tobacco-shed near here last night between Harry Nikirk and Tom Delahanty for a purse of \$100. The conditions being skin-tight gloves to a finish. Samuel Freeman of New York was referee. Nikirk scored the first knock-down and first blood. In the seventeenth round Delahanty was blind, and Nikirk was given the battle.

### MISS BEECHER LEAVES OMAHA.

OMAHA, Neb., April 12.—At 6:30 last evening Miss Beecher took the east-bound Milwaukee train on her way to Cleveland. Her attorneys decided that the sooner she was removed from the scene of her trial the better would be her chances for recovery.

### INTERESTED PEOPLE.

Advertising a patent medicine in the *peculiar way* in which the proprietor of Kemp's Balsam for coughs and colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle free, that they may try it before purchasing. The large bottles are 50c and \$1.00. We certainly would advise a trial. It may save you from consumption.

THE CHICAGO DRAINAGE BILL PASSES THE HOUSE.

Good Prospects for the Adoption of the Australian Voting System—In Other Assemblies.

SPRINGFIELD, Ill., April 11.—The lobby and galleries were crowded when the House met Thursday morning, and the deepest interest was manifested in the coming contest over the Chicago drainage bill.

After the reading of the journal Mr. Meyer opened the debate by reviewing briefly the provisions of the bill, and Mr. Ross of Kentucky followed by making the opposition. The debate lasted three hours, and the bill was then put on its passage and the roll call showed it had passed by a vote of 92 in the affirmative to 42 in the negative.

It seems that the Australian election system will probably be adopted in Illinois. The Hurst-Jones bill embodying this plan was unanimously reported by the House Judiciary committee four weeks ago, and was made a special for Thursday. In the afternoon it was taken up, read a second time, and without amendment or opposition, ordered to be read by yeas and nays. There is no doubt that the measure will pass the House by an overwhelming vote, and the action of the Senate already this session on a similar bill would indicate that it will meet almost unanimous approval in that body.

The Hurst-Jones bill provides that the State, county, or city shall furnish at the public charge all the tickets to be used at any election; that these tickets shall contain the names of all persons to be voted for for any office; that no other tickets shall be used; that the tickets shall be furnished only at a time to actual voters; that the voter shall indicate his choice by placing a mark after each name for which he wishes to vote; and that, during the preparation, he shall be absolutely prohibited from his choice remain, at his pleasure, a secret forever. By this law the election process is as follows: The State, county, or city government prepares ballots containing the names of all persons to be voted for, copies of these ballots being published in the newspapers of both parties prior to election day and also posted at the polling places. On election day there are provided at each voting place a series of booths or compartments. The registered voter approaches the rail at the polling place and is given a ballot on the back of which the two inspectors appointed for the purpose write their names or initials. He returns with this ballot to one of the private compartments, marks opposite the names of the candidates, and then returns to the booth with the endorsement of the inspectors on the back, and hands it in as usual. Nobody but the voter is allowed inside the rail, no electioneering can be done within a specified distance, no ballots are circulated publicly, and no votes can be cast or counted except those which are endorsed as by law. As all are endorsed in the same way no particular ballot can ever be identified.

In the Senate Thursday Senator Becker's bill fixing the pay of members at \$10 a day for the first 100 days of a session of a session of the legislature and \$2 a day thereafter was ordered to third reading. The House bill providing that all but three trustees of educational institutions may be non-residents of Illinois was passed by a vote of 39 to 15. Notice of motion to reconsider was given.

Senator McDonald offered a resolution, which was unanimously adopted by a rising vote, designating Thursday, April 18, as a day for memorial services in respect for the memory of the late deceased ex-Senator Luther Dearborn.

Senator Bogardus' bill providing that the sale of liquor may be prohibited in counties, cities, villages, towns, election precincts, or wards by a vote of the people of any such territories in which the question of license or prohibition may be submitted was considered to-day by the Senate committee on county and township organization, and by a vote of 8 to 2 a favorable report upon the bill was ordered. Forty citizens of Marshall county to-day sent to the Senate a protest against the passage of the drainage bill until the dams are first removed from the Illinois river.

Gov. Pifer has issued a proclamation for a special election in the Nineteenth district to fill the vacancy occasioned by the death of Congressman Township, to be held on the 21st of May.

The board of railroad and warehouse commissioners have elected James H. Padock secretary, to succeed N. D. Munson on the 1st of May. It is expected that Bruce Kennedy of Chicago will then be chosen assistant secretary of State.

The House has passed Mr. Reilly's bill to regulate the manufacture and transportation of explosives, and read Mr. Miller's Lake View gas works bill a first time.

WISCONSIN LEGISLATIVE WORK.

Bills Passed and Killed by Either House—A Bridge Measure Vetoed.  
MADISON, Wis., April 12.—In the Senate an Assembly bill, which prohibited training for prize fights, Senate bills were killed requiring polls to open on general election days at 9 a. m. and to close at midnight; establishing a State reformatory for women and appropriating \$27,000 therefor, and constituting Lincoln's birthday, Jan. 12, a legal holiday. The Governor sent to the Assembly his veto to the bill for the erection of a statue over the Menominee Valley at Milwaukee, his objection being that the measure sought to break the constitution in several particulars.

Assembly bills were passed requiring fish-ways to be placed in all dams in the Catfish river, in Dane county, and the Rock river, in Rock county, and requiring property owners, railroads and others to clear away brush at the intersection of railways and highways for the safety of the public. Assembly bills were killed appropriating \$20,000 for the erection of a school at Hurley, in which instruction was to be given in assaying, mining, engineering, etc., and to require sheriffs and other officers leaving police duties to enforce the game laws, at the same time abolishing the office of game wardens.

MAKING LAWS FOR MICHIGAN.  
The Senate Passes the "Skimmed Milk" Bill.  
LANSING, Mich., April 12.—The Senate passed a bill forbidding the sale of milk from which the cream has been removed unless the word "skimmed milk" is plainly printed on the cans. A bill providing that trust and deposit companies shall be subject to the inspection of the State bank inspector was also passed by the Senate. The bill provides that such companies shall not do a general banking business. A Senate bill passed authorizing the Wisconsin Building and Loan association of Grand Rapids to increase its capital stock to \$2,000,000.

The bill forbidding the sale or manufacture of cigarettes passed the House. The House passed appropriation bills as follows: \$100,000 for the agricultural college, \$85,700 for the State normal school, \$25,500 for an amusement hall at the asylum for the insane at Kalamazoo, \$8,250 for the State weather service, \$6,000 for the State library.

GREAT STREET-CAR STRIKE.  
All of the Employees of the Minneapolis Lines Go Out.  
MINNEAPOLIS, Minn., April 12.—The street-car lines of this city are tied up. The conductors and engineers of the motor line went out at noon, and later in the day the employees of all the lines quit work.

The immediate cause of the strike was the issuance of an order for a reduction in wages of all the employees of the motor line. The order was promulgated at midnight, and the men held a mass-meeting this morning at which a strike was ordered. No violence has been resorted to so far and the streets are nearly deserted. The strikers held a meeting later and decided to submit their difficulties with the company to an arbitration committee.

President Lundy of the street railway

traverse and that a bitter fight would be made against the strikers if necessary, as the company felt compelled to cut down expenses.

Beer Seized in Des Moines.  
DES MOINES, Iowa, April 12.—Three wagons loaded with beer in kegs, beer in cases, beer in small cases formed a small procession going along West Walnut street at 1 o'clock Thursday, and attracted as much attention as a circus procession. The beer was seized by Hamilton and West from a case of the "Track on East First street." The manufacturer's mark is on all the kegs and cases, showing that it came from the C. Seipp Brewing company of Chicago. The shipment was all correctly labeled and labeled, but the addresses were numerous and evidently fictitious. The seizure was made by Constables Skinner and Felling upon a warrant issued by Justice Johnson. There were 159 kegs, seven cases, and two barrels.To Capture a Fugitive Mill.  
ST. IGNACE, Mich., April 12.—At 10 this morning the tugs Saugatuck and Cuyler, having on board United States Marshal Waters of Grand Rapids, Sheriff Knize of the "Soo," and Sheriff Metcalf and thirty deputies from here, all heavily armed, left this port to capture the barges having the Model and labeled, but the addresses were numerous and evidently fictitious. The seizure was made by Constables Skinner and Felling upon a warrant issued by Justice Johnson. There were 159 kegs, seven cases, and two barrels.Two Editors Arrested.  
BALTIMORE, Md., April 12.—Judge Thayer of the United States District court handed down an interesting decision in the case of the United States against Charles C. Averitt, charged with stealing a package of newspapers from the top of a letter box. Judge Thayer decides that the taking of a package of papers from the top of a letter box is no offense against the mail laws. The top of a mail box is not a receptacle for mail, and a package placed there is no more in the custody of the mail than a package placed upon the steps of the post office.Ate Wild Parsnips.  
ST. CLOUD, Minn., April 12.—A case of poisoning occurred near St. Joseph yesterday. Sebastian Mordam, a German farmer came from Bavaria about a year ago, was engaged in plowing. Four of his children, who were playing in the field and following the furrows, found roots of wild parsnips which were plowed up, and ate them. They soon became violently sick, and three of them died in terrible agony. Medical aid was summoned immediately, but arrived too late to save their lives. The other child is alive and may recover.Murdered at a Beer Party.  
WEST BAXTER, Mich., April 12.—At a beer party at the residence of Stephen Wiggins in Edward Township last night Frank Buhlman was struck on the head with a heavy iron pipe by Steve Kartes. Buhlman died about four hours after. Kartes and his brother Peter, who was also fighting with Buhlman, have been arrested. Great excitement prevails over the matter.A Knave Whipped by Women.  
ALLEGAN, Mich., April 12.—A man named Harbort, charged with molesting his invalid wife and sustaining improper relations with other women was called on here Monday night by a crowd of women of the village, armed with hickory dows. They whipped him within an inch of his life before concluding the call.Held the Steamer Liabie.  
POCONGERSIE, N. Y., April 12.—In the Hudson civil damage case of House and others vs. the steamer Liabie, the steamer Walter Brett, the jury rendered a verdict of \$4,000 for the plaintiff. The action was to recover damages for the death of a person who became intoxicated on the boat.

Six Children at a Birth.

PERHAM, Minn., April 12.—A report from New York Mills says that Mrs. Beeber, a Finnish woman, has just given birth to six children, three of whom are alive and three were born dead. A little over a year ago a Finnish woman at the same place gave birth to four children.

Ex-Governor Farwell Dead.

GRANT CITY, Mo., April 12.—L. J. Farwell, an ex-Governor of Wisconsin, died here Thursday. He was a noted politician of the Northwest forty years ago.

The Stomach Distills Acids.

These, if existent in a natural quantity and invited by bile, play their part in the functions of digestion and assimilation. But the artificial acid resulting from the inability of the stomach to convert food received by it into substance, is the producer of flatulence and heartburn, which are the most harassing symptoms of dyspepsia. The best corrective is Hoeft's Stomach Bitters. Far more effective is that carbonate of soda, magnesin or other alkaline salts. These invariably weaken the stomach without procuring permanent benefit to man or woman chronically dyspeptic, and consequently nervous, can be in possession of the full measure of vigor allowed by nature. Therefore, invigorate and regulate the system, and by so doing protect it from malaria, rheumatism and other serious maladies.

Was the Car in Danger?

PARIS, April 12.—A rumour prevails on the boulevards that an attempt has been made upon the life of the Car, but no confirmation of the report has been received in any quarter of Paris which would be likely to be promptly informed in case of an attempt to kill his majesty.

Scoring the London "Times."

LONDON, April 12.—Sir Charles Russell in the Parnell commission to-day attacked the Times on the score of the forged letters. It had put forth a serious and reckless calumny; its manner of withdrawal was ungenerous, and it must abide the consequences.

New Hungarian Ministers.

PESTH, April 12.—The appointments of Count Szapary as Hungarian Minister of Agriculture, Industry and Commerce, and Herr Weckerle as Minister of Finance, and Herr Erdelyi as Minister of Justice, have been announced in the Official Gazette.

## THE NATIONAL CAPITAL.

A DAY'S GOSSIP FROM THE CITY OF WASHINGTON.

The Ames Court-Martial Convened—Windom on Silver Coinage—Sammison Commission Secretaries.

WASHINGTON, April 12.—The court-martial for the trial of Maj. Ames met this morning. The charges and specifications presented charge Ames, who is a retired officer, with falsifying Col. Gibson Capt. Bourk with drunkenness and acts of blackguardism on inauguration day in ordering Ames off Pennsylvania avenue during the parade, and also with publicly assaulting Gov. Boutwell. Ames appeared in uniform and said he desired counsel. An adjournment was taken to 1 p. m.

At the afternoon session Capt. Knox was received as a member of the board and appointed counsel for Ames. Court then adjourned until to-morrow.

Mr. Windom on Silver Coinage.  
WASHINGTON, April 12.—An interview between a Nevada Senator and Secretary Windom on the silver question has developed some interesting points. First, the silver problem has not been considered by the Cabinet; second, it is not likely to be considered in a hurry; and, third, Secretary Windom indicated that he was opposed to any increase in coinage, as demanded by Senator Stewart, so long as he has millions of useless standard dollars stored away.Will Retain His Place.  
WASHINGTON, April 12.—Capt. James E. White, superintendent of the mail service, stationed at Chicago, will not be removed. Neither will any of his subordinates. This is the ultimatum that Postmaster-General Wamont has just given Senator Callom and Congressman Hopkins. James Ellwood, candidate for White's place, will be promoted, but to another position.Sammison Commission Secretaries.  
WASHINGTON, April 12.—Lieut. Parker of the navy will accompany the Samoan commission in the capacity of secretary. Lieut. Bickingham, now naval attaché at Philadelphia, has been selected to accompany the commission to the Samoan mission in a similar capacity, will join the commission at Berlin and also act as a secretary.The Cruiser Baltimore.  
WASHINGTON, April 12.—The new cruiser Baltimore has been docked at Philadelphia for the purpose of having her propellers put on. She will probably remain in dock until the 15th or 16th instant. Her bottom was slightly muddy, but otherwise in good condition.Creditors Made Happy.  
WASHINGTON, April 12.—The comptroller of the currency has declared a dividend of 20 per cent in favor of the creditors of the First National bank of Livingston, Mont., which failed Aug. 5, 1884. This 20 per cent in the claims proved amounting to \$36,322.05.Capital Gossip.  
Paymaster J. R. Carnady and A. F. Hinman have been placed on the retired list of the navy.

Robert F. Hill of Michigan, a member of the board of pension appeals in the interior department, has resigned.

William Wharton, assistant Secretary of State, and Judge Chandler, first assistant Secretary of the Interior, have taken charge of their new offices.

Secretary Noble has requested the Attorney General to direct the suspension of all suits against the Missouri Mercantile company and the Northern Pacific railroad for illegally cutting timber on Montana public lands until an investigation can be made. The District Attorney has recommended the dismissal of the suits upon information that the Government would find it difficult to secure evidence at this late day.

A BAD MAN DEAD.  
Guy Weymouth, the Notorious Burglar, Breathes His Last.

JOLIET, Ill., April 12.—The notorious Guy Weymouth, a Chicago criminal, died in prison Thursday. Fred Howe and Weymouth committed five burglaries along Congress street during the holidays of 1887. They were captured and held in \$10,000 bail each, and when convicted came down for five years each. After his capture at Joliet, Weymouth had played the devoted lover to the pretty daughter of a prominent clergyman at Odell, Ill. She eloped with him to Chicago, where he deserted her. The last heard of the girl she was a waitress in a South Halsted street restaurant.

Captured a Moonshiner's Stronghold.  
LOUISVILLE, Ky., April 12.—The possessor of United States Deputy Marshal E. F. Warner and Revenue Agent E. M. Brown, which started from Salersville the first of this week, has captured the moonshiner's stronghold on Carr's creek, near Hindman, Ky. The leaders of the outlaws had been arrested, and had been taken to the jail. Among these were the two Sloans and the two Adamses, who were in the party by which Deputy Marshal Weymouth was waylaid and murdered. Only five men were captured and sent to the jail as prisoners, and one of them was of no importance. The illicit distilleries in the neighborhood, five in number, were destroyed. The deputy marshals party numbered twenty-four, and a fight was expected, but they met with no resistance whatever.Quick Revenge by Indignant Citizens.  
DELUITH, Minn., April 12.—Early yesterday morning, at a notorious house at Tower, kept by Emma Brown, the father and son of the place were severely and brutally beaten a man named Kerrigan. On hearing of the outrage the people of Tower went down on Monday to the house, which was located near the depot, and a fight was expected, but they met with no resistance whatever.Killed His Child as a Sacrifice.  
SAVANNAH, Ga., April 12.—Primo Law, a negro living on the Springfield plantation, killed his 4-year-old child Thursday as a sacrifice to the devil. He says he was ordained by God to do it in order to appease the deity, who was about to destroy the world.Lord Londonderry's Successor.  
LONDON, April 12.—The Earl of Codo-ga is spoken of as the successor of Lord Londonderry as viceroy to Ireland. It is reported that Bishop Keane, of the Catholic university at Washington, is not meeting with entire success in procuring professors in German.Pennsylvania to Be Well Represented.  
HARRISBURG, Pa., April 12.—The Pennsylvania Legislature to-day passed a resolution providing for the transportation of the Governor, head of departments, and the Legislature to the New York centennial of April 30, in conjunction with 8,000 members of the national guard.A Narrow Escape.  
Col. W. K. Nelson, of Brooklyn, came home one evening, feeling a peculiar tightness in the chest. Before retiring, he tried to draw a long breath but found it almost impossible. He suffered four days from distress, and the doctor gave him up. Dr. Acker's English Remedy for Consumption saved him and he is well to-day. Prentice & Evenson druggists.

—Miss May Norris, a graduate of Miss Williams' school, who has lately been setting as stenographer for the common council in the water works investigation, went to Milwaukee yesterday, to accept a position with the Wisconsin Type-writer Company. Miss Norris is an expert stenographer, and the best wishes of friends go with her.

—Milwaukee Catholic Citizen: "Mr. Charles M. Scanlan, late of Washington, D. C., has opened an office in this city for the practice of law. He held an important position in the pension office at Washington, which he recently resigned. Mr. Scanlan is well known in Wisconsin having practiced law at Jansville previous to his going to the Capital."

—Some of those who braved last night's weather to see "After Dark" were very much disgusted when they heard that there was to be no performance. One prominent young west side business man, who had brought his best girl a long way through the mud, was disgusted. As he moved away from the opera house he was heard to mutter, "I was over this, my cake is dough."

—For the benefit of those who think Judge Patterson was too severe in his sentence on Clark and Powers, we will state, one year is the shortest sentence, which, under the law, the judge could give the boys. Not more than five nor less than one year is the time the law says, and surely Judge Patterson could not be accused of being too severe.

—The warden of the state prison, at Wausau, paid the municipal court of Rock county a handsome compliment yesterday. He said that the commitment papers in the case of Clark and Powers were the best, and most neatly executed commitments he had ever received. The papers were made out by Mr. E. B. Inman, clerk of the municipal court, on the Hammond typewriter.

—The report of the Rockford Loan &amp; Building Association showed that \$105,000 had been loaned during the year past, mostly for building purposes, and that the profits for the year had been \$26,267. During the eight years of its life over \$100,000 have been divided in profits. It is expected that those who invested their money eight years ago will be paid in full about one year hence.

—E. A. Clyde is home for a few days, after a business trip through northwest Iowa. He reports business dull in that country; merchants are afraid to buy goods until they know what the crops for this year are going to amount to. While on the way home, some one broke into Ed's grip and took some sample gloves and mittens, and every thread of extra clothing which he carried with him.

—The largest stock of boys' knepants ever shown in this market can be seen at the Milwaukee Clothing Company's store. Prices ranging from 40 cents and upwards for good durable casimere knepants. Boys' best quality corduroy knepants for all ages at 75 cents per pair. All wool casimere knepants for children from four to twelve years old, on offer for a short time only at the low price of 75 cents. We have all the latest novelties in boys' waists at 25 cents each and upwards. Mothers, bring your boys to the Milwaukee Clothing Store and save 33 per cent.

—Mr. A. K. Cuts, of this city, received a letter to-day from Mr. David Hart, formerly a resident of the town of Harmony and Fulton, but now a resident of Athol, Kearney county, Nebraska. The letter contains the unwelcome news that on last Saturday Mr. Hart and his family left their home on a short visit, and on returning found their house and stable had all been destroyed by fire, including contents. Everything was lost including two cows in the stable. No insurance. Mr. Hart went to Nebraska about six years ago, and had just completed his buildings on his new farm.

—Mr. de Blowitz, the celebrated Paris correspondent of the London Times, will relate, in Harper's Magazine for May, the story of his greatest journalistic achievement, the publication of the Treaty of Berlin at the very hour that it was being signed by the representatives of the powers. The news caused a great stir in Berlin at the time and an irritation not even yet allayed. The article in Harper's is the first authentic narrative of how the treaty fell into Mr. de Blowitz's hand, and the author declares that nothing more about the matter will ever be known. Mr. de Blowitz is an Austro-Slav by birth, but has become "a naturalized Frenchman." A portrait of him accompanies his article, which is entitled "A Chapter from my Memoirs."

SILENCE PRACTICE.

THE LIGHT INFANTRY ARE DOING SOME GOOD SHOOTING—APPOINTMENT OF OFFICERS.

The Jansville Light Infantry have been keeping up an active interest in rifle practice all winter. Last evening was the regular drill night and the company did some very creditable shooting.

The boys say they seem destined not to have a "crack" shot among them; for as soon as some one makes a good record, either some one makes a much better one or else he makes a much worse one on his next trial. But the boys are all good shots and the scores average up well.

Last night Capt. Koebelin appointed a fall quota of non commissioned officers, some of the old staff having left the city. The sergeants and corporals of the company are:

1st Sergeant—Chas. Barnard.

2d Sergeant—Will Koebelin.

3d Sergeant—Leo Mooney.

4th Sergeant—Chas. Hanson.

The corporals appointed were: Tom Richardson, Ben. Warren, Walter Carey, L. D. Richardson.

To the Public.

All space in my cold storage warehouse is rented with the exception of two compartments. Those who call first will be served first. More clean money can be made on an investment of one thousand dollars in butter and eggs than in any other way.

O. B. CONRAD.

## A GAME CALLED POKER.

SOME JANSVILLE CARD PLAYERS LOSE SOME DOLLARS, AND THEN COMPLAIN ABOUT IT.

James Hart, Lewis Bond and Wm. Mack engaged in a quiet little game of poker last night. When they began they all had some money but when they got through Mack claimed that Hart had some cash that belonged to him. Hart could not see it that way, and this morning he made a complaint in Judge Patterson's court charging Hart with betting on a game of chance viz. poker. When Hart was wanted he was not to be found so Marshal Hogan and Sheriff Babcock resolved themselves into a searching committee of two and began a search for him. After some trouble in determining just where the bird had flown, they started for Beloit and there they caught their man. Hart was brought back to this city and will be arraigned before Judge Patterson this afternoon. Just what the outcome will be is hard to say. Hart's friends suggest that if Mack and Bond appear against Hart that they in turn will be arrested on the same charge. The end is not yet.

## THEATICAL TRIALS.

THE STUART THEATRE COMPANY JANGLE AMONG THEMSELVES, AND FAILED TO APPEAR LAST NIGHT.

Those who braved the weather to see the Stuart Theatre Company play "After Dark" last night were disappointed for the company failed to appear. An investigation of "What could the matter be," revealed the fact that there was trouble among the players. Mr. and Mrs. Freeman seem to be the dissatisfied parties. It seems that Mrs. Freeman had given a two week's notice that she was going to leave the company, agreeing to stay only in consideration of an increase of salary. This was refused, and Mrs. Freeman refused to go on in the parts which Mrs. Stuart had assigned to her. Mrs. Freeman, thinking that his wife's rights had been infringed on refused to go on with his part. Mr. Stuart, the manager of the company has not been here this week, being sick in Chicago, but Mrs. Stuart then and there discharged Mr. and Mrs. Freeman. She had also paid all the players one week's salary in advance, and their board up to the end of the week.

To-day acting manager, O. N. Richardson, received a telegram from Mr. Stuart in Chicago instructing him to retain all the members of the troupe but Mr. and Mrs. Freeman, and that the company would fill all their engagements. This Mr. Richardson has done, and as soon as new people can be secured to take the place of Mr. and Mrs. Freeman, the troupe will go on as if nothing had happened. The company is run on a sound financial basis, and are in no sense financially embarrassed. It seems to be merely one of those unpleasant things that do sometimes happen; an internal dissension among the cast, and will undoubtedly soon be amicably settled.

## AN OFFENSIVE BREATH.

It is not distressing, not only to the person afflicted if he have any pride, but to those with whom he comes in contact. It is a delicate matter to speak of, but it has not only friends but lovers. Bad breath and catarrh are inseparable. Dr. Sage's Catarrh Remedy cures the worst cases as thousands can testify.

## THE INVESTIGATION.

THE TESTIMONY ALL TAKEN LAST EVENING.

The investigation into the opera house fire and water supply furnished by the water company on that occasion, was brought to a close last evening about five o'clock, the testimony of a number of witnesses having been taken. The whole matter is now in the hands of the committee, which will probably be reported to the council meeting on Monday evening. The investigation may not throw new light on the opera house fire nor give reasons for the poor supply of water, but it will give much valuable information relating to the franchise which will be of benefit to the city in the future.

## PORTABLE SCRAP FILE.

Among the useful articles recently patented is a Portable scrap file by O. W. Taylor, of the Western School of Telegraphy. The file is a neatly bound book 3 1/2 by 8 inches, indexed and made of the best grade of 11 men paper. Each double page represents a pocket to contain clippings and scraps of information. The index makes the work a complete ready reference book, and it will be found of great value to teachers, public speakers and in fact to all classes desiring a reference book. The goods are being manufactured at the Gazette bindery, and present a very nice appearance. They will be placed in the hands of booksellers as soon as ready for distribution.

## THE WEATHER.

At seven o'clock this morning the thermometer indicated 42 degrees above zero. Cloudy with [northeast wind].

At one o'clock p. m. the register was 42 degrees above zero. Light rain with northeast wind. For the corresponding hours one year ago the register was 32 and 49 degrees above zero.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from experience. It promotes the growth of new hair, and makes it glossy and soft. The Vigor is a sure cure for dandruff."—J. W. Bowen, editor Enquirer, McArthur, Ohio.

## GREAT BARGAINS.

The stock of John Griffith's and store fixtures will be sold regardless of cost during the next sixty days. Cook stoves and all other goods at prices never before offered in Jansville.

I shall continue my regular business at 7 and 9 River street. Stoves stored at reasonable rates. Lawn mowers, sprinklers and hose, and all other goods in great variety. A good fire shop with practical workmen. E. W. LOWELL.

## Boys' and Children's Clothing—Last evening's styles.

The Milwaukee Clothing Company are now prepared to show all the latest novelties in boys' suits. Handsome styles in boys' jerseys and knit suits. A splendid line of boys' knickerbockers and school suits running in children's ages from four to fourteen years at prices so low that they astonish everybody. Buy your boys' clothing at the Milwaukee Clothing store and save your money.

## A NEW CODE OF SIGNALS.

FOR COMMUNICATION BETWEEN THE CHIEF OF THE FIRE DEPARTMENT AND THE ENGINEER OF THE PUMPING STATION.

During the investigation of the water works service by the committee on fire and water of the city council, it was learned that the water company had never given assent to the code of signals as arranged between Chief Engineer Blunk, of the fire department, and Supt. Croft and Engineer Spickler, of the Water Company, and which have been used since the acceptance of the water works service. Therefore, at the suggestion of the members of the committee on fire and water, Chief Blunk and Mr. Clarke, of the water company, met last evening, and the following code of signals were agreed to, and the water company employees were instructed by Mr. Clarke to respect the same:

## FIRE SIGNALS.

At sounding of fire alarm standpipe pressure will be first used.

## DIRECT PRESSURE.

2 TAPS OF GONG.

Increase pressure to 100 pounds.

2 TAPS REPEATED.

Increase water pressure to 125 pounds.

1 TAP OF GONG.

Fire out.

If, in extreme cases additional pressure may be needed the same will be ordered by telephone by the Chief Engineer of the Fire Department or any of his assistants acting under his orders, but the maximum pressure shall not exceed 150 pounds.

HENRY BLUNK, Chief Engineer, Fire Department.

THE JANSVILLE WATER CO. JANSVILLE, April 11, 1889.

## GOSSIP ABOUT WOMEN.

There are 275 "lady clergymen" in this country.

Mrs. Burnett is decorating a new house in Washington.

Patti can carry on conversations in five different languages.

The Empress of Brazil is embroidering in silk and gold a flag which will be sent to the sacred sanctuary at Lourdes.

Mrs. Joseph Chamberlain is at present in London holding fashionable "at homes" and presiding at a variety of social functions.

The portrait of Ellen Terry in her best-known robes is to be painted by Sargent. Mr. Irving is said to have given him the commission.

Mme. Adeline Patti has received \$1,500 every time she has sung at the Albert hall in London this season. She responded to three cheers for her clearly.

A young lady of 15 years is shortly to make her debut in London whose talents in playing with extraordinary dexterity on the single string of a violin.

At the Turin beauty show the first prize was taken by a Viennese, the second by an Italian, the third by a Parisienne, and the fourth by a "Lady of Lyons."

The cotton palace exhibition at New Orleans is not to be a woman's fair, but there will be a woman's department in all representative work of woman will be fully displayed.

"We shall have no more petticoat meddling in politics now." Such was the characteristic speech which burst forth from the representative work of woman will be fully displayed.

Frederick.

"Ladies of the circus" are said to have the privileges of the drawing-room in Paris. A pretty Creole girl, the pride of the Nueces River, is charged with singing with a lady's voice, is chiefly responsible for the innovation.

According to Boston papers there is a new feature in life in the Universal Hub. It is the business girl. She isn't afraid of the dress, the dandy suit, the top hat, the prettiest, has a soft voice, and does not dirt during business hours.

A noteworthy feature of the treatment of patients at the training school for nurses connected with the Women's Homeopathic association of Pennsylvania is the fact that all cases of typhoid fever treated during the year not a drop of alcoholic stimulants was used, and all recovered.
